

Steven Noyes

Front-End Developer – Accessibility & Regulated Industries

Chambersburg, PA | [linkedin.com/in/steven-noyes](https://www.linkedin.com/in/steven-noyes) | github.com/SteveNoyes | stevenmnoyes.com

SUMMARY

Front-end developer with 7 years of experience building accessible, compliance-driven web and email experiences, including regulated healthcare content and formulary data delivery. Background spans enterprise product work, agency freelance delivery across 5+ CMS and e-commerce platforms, and independent client ownership from design through live-site performance monitoring. Comfortable moving between marketing-driven front-end work and structured, compliance-reviewed development.

EXPERIENCE

Front End Developer — MMIT Feb 2023 – Present

- Build and maintain web and email content for a proprietary iOS medical application delivering real-time, compliant formulary and market-access data (including FormTrak) to field teams.
- Develop email and web content that passes rigorous, compliance-driven content and design review cycles.
- Collaborate with an international, cross-functional team in an Agile/Jira workflow.

Freelance Front-End Developer — Upwork Jun 2020 – Jan 2023

- Delivered accessible, performance-optimized websites and storefronts across 5+ CMS and e-commerce platforms.
- Built solutions in HTML5, CSS/SASS, JavaScript, React.js, AngularJS, and PHP.
- Managed client relationships, scoping, and production troubleshooting independently.

Front End Developer — Boomer Naturals Nov 2019 – Mar 2020

- Optimized conversion-focused website for accessibility, contributing to a 34% increase in email engagement.
 - Built and maintained email campaigns using Mailchimp and MJML.
 - Operated in a Scrum/Agile environment managing tickets via Trello.
